Updated: January 1st, 2009

The information contained in this transmission is confidential and intended only for the use of the individual or entity to whom it is addressed. If you are not the intended recipient, you are hereby notified that any distribution, copying, disclosure, use or reliance of the contents of this transmission is strictly prohibited. If you have received this communication in error, please notify us immediately by telephone and return the original transmission to us. Thank You.

1. Introduction

This Statement of Qualification and Operation summarizes the specialized services provided by Pro Watts, Inc. in the field of Electrical, Automation and Control.

2. Pro Watts, Inc.

Pro Watts, Inc. (<http://www.prowatts.com>) is a system integrator in the utility and industrial process and control industry. Our firm is based in Markham, Ontario and consists of a small team of specialists operating under the following regulations/acts/jurisdictions/governances:

2.a Design, Drawings, Specifications, Instructions, Programming or any other types of information supplied by Pro Watts, Inc. to the buyer or the marketplace is created by company employed engineers and technologists. C.E.T.'s (Certified Engineering Technologists) registered in the province of Ontario, are operating in accordance with the "Certified Applied Science Technologists Act" and "The Statement of Professional Regulation and Practice". Work is provided/accomplished through the application of established codes, standards and generally recognized procedures and practices appropriate to the endeavor, and in accordance with the certified technology professional's academic qualifications, training and experience.

2.b Pro Watts, Inc. does not engage in the practice of professional and/or consulting engineering / architecture, nor is the information supplied by Pro Watts, Inc. assumed to be as such. Information supplied by a professional engineer / architect and/or consulting engineer / architect are sealed indicating professional status and associated liabilities, and when such services are required by Pro Watts, Inc. it is solicited/provided via a subcontractor agreement with an individual/firm having a C of A (Certificate of Authorization) from the regional Professional Engineering / Architecture Association and/or is verified to hold/maintain the required Liability and E&O insurance, for the period of the contract.

2.c Manufacturing, Fabrication, Modification, Condition Assessment, Commissioning and Programming or any other type of field/site work supplied/provided by Pro Watts, Inc. to the buyer or the marketplace is performed by company employed and/or subcontracted journeyman electricians, limited licence Technologists, and associated apprentices, having certification under the Apprenticeship and Certification Act, 1998 (ACA); Trades Qualifications and Apprenticeship Act (TQAA); The Electrician's License Act and/or "Certificate of Practice".

2.d Most products Pro Watts, Inc. supplies are procured and installed/utilized in the manner outlined in the Canadian Electrical Codes/Standards and original manufacturer's instructions. However when products required need to be manufactured by Pro Watts, Inc. they are manufactured by qualified personnel to the letter of the CEC code and regulations in accordance with the companies "Certificate of Compliance" – Manufacturer Certificate Number and applicable requirements (CAN/CSA-C22.2 No. 14-95 – Industrial Control Equipment, UL Std. No. 508A – Industrial Control Panel) and will bear the Pro Watts, Inc. rating plate c/w CSA mark, and the NRTL/c indicator, where/when applicable.

Changes to this Policy

From time to time, Pro Watts Inc. may introduce new services, products and caveats/qualifiers, and as such Pro Watts, reserves the right to modify this policy at any time by notifying customers, via the Pro Watts, website, of a new 'STATEMENT OF QUALIFICATION and OPERATION' policy. You can send e-mail (info@prowatts.com) to us with any further questions or concerns.
